

# TENANT COMMUNICATION

## SIMCOE PLACE BULLETIN

January 2011

A regular series of tests will be conducted on the buildings generator back up Power Systems. These tests are scheduled on a Wednesday of every month (see dates below) starting at 9:00PM.

We recommend that the tenant use this schedule to, as a minimum, back up any important computer files that they have stored on their hard disk drives. A tenant may experience a “flicker” of the lighting system while regular power transfers to emergency power.
